

Genocide Proposal Topic

You are to select two genocides that you perhaps know nothing about. Here you will explain to me why you why you would like to research this topic/s. The reason you are choosing two is so you have options. I will determine which topic you will write about based on your proposal. Try not to discuss this with your classmates because they may select the same topic as you and you may not get your choice. This will be an ongoing assignment throughout the semester so choose a topic that will interest you and your classmates when you present it. (Please write your response below and send via email to Mr. Bush)
